### Freight Forwarders

It will cost you nothing for information you desire concerning Canadian Customs Rates and Regulations or U.S. Customs Rates and Regulations.

### Accuracy

and precision in Customs proceedings are so essential to the interests of importers that the services of a competent Broker are usually worth vastly more than the small cost of such services.

## WE MANUFACTURE

### Face Brick:

ROUGH FACE—Reds, Browns, Gun Metals, Tapestry and Rustic Effects. SMOOTH FACE—Red, Brown, Buff, Ox Blood, Stiff Mud Brick.

### Common Brick:

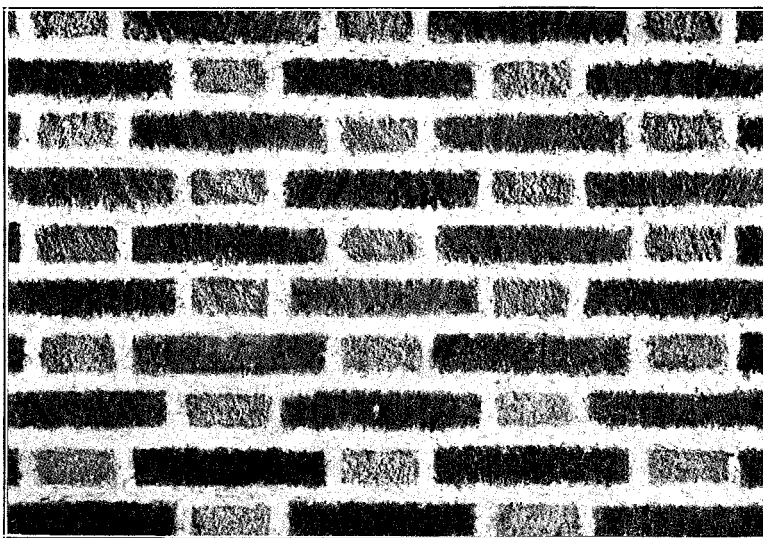

Good Quality.

Large Capacity.

Prompt Delivery.

### Hollow Building Block.

### Tiles

This cut shows one of eighty different Brick Panels in our Display Room

We have three factories in the City of Calgary.

One makes 100,000 common brick daily.

One makes 100,000 face brick daily.

One makes large quantities of hollow building block.

We have our own delivery system, and place our materials at your building site. The date of delivery we give you is the date the material arrives. Prompt delivery means a great saving to the builder.

With factories in the City, we eliminate freight and duty charges, and furnish Clay Products at the lowest prices.

We manufacture a face brick equal to any imported brick.

A stiff mud brick, hard, with a close texture.

Dark red smooth face brick; many other colors.

Rough face brick for residences in tapestry colors that harmonize and produce the most modern brick building.

### Alberta Agents for Waite-Fullerton High Grade Builders' Supplies

Hollow Partition Brick, Fire Brick and Sewer Pipe, Ludowici-Celadon Roofing and Floor Tiles, Architectural Terra Cotta, Pama Stone Wood Gypsum Block, Moravian Fireplace and Floor Tiles, Marble and Slate, Tiffany Ornamental Iron and Bronze, Cement Metalforms, Patent Safety Scaffolding, Parquetry Flooring, Paving Brick, Stone, Cut and Dimension, Fireplace Brick, Art Pottery and Garden Furniture.

We are the largest Alberta importers of high-grade building materials. Our brick has been used for facing almost every important office building in Alberta. The residences built of our brick are the best examples of modern brick work. Some of the buildings using our face brick are:

**Calgary:**—C.P.R. Hotel, Hudson Bay Building, Canada Life Building, Dr. Lafferty's Stores, Dafeo Apartments, Traunweiser Residence, Devenish Residence, Geddes Residence. **Edmonton:**—C.P.R. Office Building, Monroe Building, Northern Investments Building, C. W. Cross Residence, McDougall Residence, Alberta University, Revillon Warehouse.

We have the most elaborate face brick display of Alberta at our offices. Panels of brick laid up in different colors of mortar with flush and raked joints, showing modern brickwork for architects and builders to inspect.

# The New Store for A 242 Year Old Business

**T**HIS Big New Store is the direct result of retail supremacy. It proves the achievements of the old, old Store, and indicates what the future holds forth. It is a building of the most modern type—the handsomest Store architecturally in Calgary, if not in the Dominion—a monument to progressive merchandising. It is with a sense of gratification that we look ahead to the occupancy in early March. Forty Departments with over 5 acres of floor space—erected at a cost of \$1,500,000. A modern Store to best serve the masses and the classes of Calgary and the West.

# Introductory

---

The growth and industrial development of Calgary as recorded in the seventh edition of the City Directory exceeds all previous records in the history of the city as indicated in any previous issue.

The Directory has been issued in a comparatively short space of time. The work is as thoroughly up-to-date as time and systemized methods can make it. The enumerating and compiling of the names has all been done by trained and experienced men and the publishers have earnestly endeavored that the work shall justly represent its people and institutions, growth and progress. It furnishes exact data of the city and its measure of prosperity, which is unerringly shown by the great increase in the number of names, business firms and professions as indicated in the pages of this book.

TABLE OF NAMES, SHOWING INCREASE

	Individual Names	Firm Names	Total	Population
June, 1909	9,826	920	10,746	29,265
July, 1910	12,852	1,057	13,909	40,000
Nov. 1, 1911	21,603	1,717	23,320	54,687
Nov. 1, 1912	32,782	2,272	35,054	73,759

POPULATION, OCTOBER, 1912—73,759

It is customary for Directory Publishers to give an estimate of the population of a city based upon the number of names the Directory contains. We wish it to be understood that these figures deal with Calgary and suburbs and to be regarded as an estimate. *It is not a census.*

The population of Calgary has been figured on a basis of  $2\frac{1}{4}$ , which is conservative, this allows for women and children and those that are not represented among the list of names.

The publishers thank the public for their courtesy in supplying information, and the subscribers for their liberal support in the production of this work.

# City of Calgary

Calgary, the gateway of the "Last Great West," is the most important city between Winnipeg and Vancouver and is situated on the main line of the C. P. R., at the confluence of the Bow and Elbow Rivers. It lies 860 miles west of Winnipeg and 640 east of Vancouver, and is practically the commercial metropolis of the Province. Most of the leading Eastern manufacturers and wholesale houses are represented here by over 1,000 commercial travelers.

Incorporated in 1892 as a town it received its city charter two years later, when its population amounted to about 6,000. Calgary has grown to be a metropolitan city containing over 70,000, a remarkable growth.

Calgary appears to be the geographical railway centre of Alberta. The C.P.R. employs about 3,600 hands in Calgary district. The Edmonton branch and the Macleod branch of the C.P.R. run north and south respectively. In addition, the G.T.P., the C.N.R. and the Great Northern are all heading towards Calgary.

Calgary is the western headquarters of the C.P.R.; controlled by a general superintendent and with a large staff of officials and clerks.

Calgary is the seat of the milling industry of the Great West, but it also holds plants manufacturing Portland cement, soap, lumber, beer, oils and paints, iron foundries, packing and abattoir plants, and many others. The discovery of natural gas within the city and adjacent to it has given an impetus to the encouragement of numerous industries, and that valuable asset now supplies power to manufacturers and also lights portions of East Calgary. Too much importance cannot be accredited to this discovery, and its value is now engaging the attention of the City Commissioners and the Board of Aldermen. A commercial undertaking with a capital of \$15,000,000 is now being formed for piping of this gas direct to Winnipeg.

All the new business blocks of Calgary are of substantial construction, built generally of stone, brick and reinforced concrete, many having steel superstructure. Material for the erection of all buildings can be supplied on the spot.

Calgary is municipally owned, controlled and operated. The street railway system, at the present time, consists of about 50 miles of trackage and the number of passengers carried for this year is estimated to be over 12,000,000. The electric light and power department is controlled by the Commissioners. The waterworks system, which at the present time consists of some 120 miles, is being largely increased.

The climate of Southern Alberta is ideal, and on account of its altitude, which is 3,400 feet above the sea level, Calgary has long been favorably noted for its beneficent attributes.

Calgary's educational advantages are of import, and its modern equipped school buildings furnishing every requirement to make them perfect. The public school buildings in the city are exceptionally attractive. There are also a number of private schools, including Western Canada, Mount Royal College

(Methodist), St. Hilda's Girls' College, Bishop Pinkham College, the Sacred Heart (R. C.) Convent, and several business colleges.

The city is well provided with parks, comprising some 450 acres. Five of these are located in the centre of the city, and give every opportunity to the young and old to enjoy themselves as they wish. Band and orchestral concerts are given at times in one or other of these parks. The city has also arranged for a park in the suburbs, which will be at once provided with street car accommodation.

Calgary is the headquarters for all the livestock associations in Alberta. The annual Horse Show, held in connection with the Cattle Breeders' and Horse Breeders' Associations, has for the past two years made an enviable reputation for itself. At this annual show the exhibits of pure-bred cattle, fat and blood stock are most marked.

Of great importance to the neighborhood is the fact that the Provincial Government of Alberta have established throughout the Province Government Creameries and Cold Storage Plants, situated within a short distance of Calgary. This means that Calgary acts as a distributing centre. Further significance is lent by the C.P.R., whose irrigation policy is in no small way revolutionizing the farming and ranching industry throughout Southern Alberta. Up to date they have expended at least over 15,000,000 and are now expending at least an addition \$15,000,000 to complete their irrigation system from Bassano to Medicine Hat, a distance of about 75 miles.

## PROGRESSION.

### The City of Possibilities.

### The City of Opportunities.

### The City of Industries.

Assessment for 1912, \$112,544,400, on a two-thirds valuation of the property assessed.

Tax rate, 12 1-2 mills.

Industrial sites offered at cost price to the city. Assessment fixed at not over \$3,000 per acre until Jan. 1st, 1918. Buildings and stock exempt from taxation until same date.

Calgary has a circumference of 36 miles

First mortgages furnish an interest rate of from five to eight per cent., according to amount of loan.

Building material of all kinds can be found in abundant quantities within the city limits and adjacent.

Twenty-six fraternal societies have branch lodges in Calgary.

All western railroads are heading towards Calgary as rapidly as possible.

The Calgary Industrial Exhibition, held in the first week of July each year, is favored with the patronage of 100,000 visitors.

Visitors to Calgary have the opportunity of visiting twelve theatres.

Calgary has a most up-to-date City Hall costing \$320,000.00.

### HOW CALGARY GROWS

Building permits, estimate,	
1912 .....	\$20,000,000
Bank clearings .. ..	\$280,000,000
Customs returns .. ..	\$2,300,000

Week end excursions to Banff—"The Playground of Canada"—are one of Calgary's pleasure attractions and outings.

Calgary is one of the most discussed cities inside and outside Canada.

Calgary is now the largest city between Winnipeg and the Coast.

Immigrants are arriving in Calgary by the hundreds daily. All do not remain in the city, of course, but most of them settle in the surrounding districts, and thus add their quota towards sustaining Calgary in its commercial supremacy.

Calgary offers most liberal propositions to industrial plants.

More full and complete information regarding Calgary will be forwarded on application to the Publicity Commissioner, Calgary.

### STREET RAILWAY SYSTEM MUNICIPALLY OWNED AND OPERATED.

Calgary can well point with pride to its Street Railway System. Installed in July, 1910, with only 16¼ miles of tracks and four cars, it has been a revenue producer from the commencement. More cars were added as rapidly as possible, and during the first six months of its existence the system showed a net profit of \$10,001.37. It is now an exceedingly valuable adjunct to the City which receives large dividends on the outlay expended.

The system is managed by the Mayor, Commissioners and a Superintendent.

### LIGHT AND POWER DEPARTMENT.

Municipally owned, controlled and operated.

Installed at a cost of approximately \$1,000,000.

The city plant is capable of supplying 2,000 h.p. 24 hour daily service generated by steam. An auxiliary 2,000 h.p. daily service is received from the Calgary Power Co., who have a water power plant forty miles west on the Bow River. The city reserves all rights to distribute light and power throughout the city, and the rates are very low, being as follows:

Light—75c per month for the first light, 60c each additional. Meter basic, 11c per K.W.

Power—6c per K.W., with discounts for prompt payments.

It will only be a short time when all municipal wires will be laid underground in conduits. Several miles have already been laid, and the work of extending the conduit system is being rushed as rapidly as possible.

The light and power department has netted the city a profit since its inauguration.

### WATERWORKS

Calgary has gravity system of waterworks. Pure, fresh water comes from numerous streams in the adjacent Rocky Mountains, a few miles west. Piped twelve miles from Elbow River to the reservoir which has a capacity of 20,000,000 gallons.

Water rates in Calgary are lower than 80 per cent. of the cities in the United States, and lower than a great majority of towns and cities in Canada.

An auxiliary plant is kept in constant readiness in case of accident or serious conflagration to relieve or assist the gravity system. Three pumps, with 5,000,000 gallon capacity, are located at this plant on the Bow River.

The water main pressure is at all times maintained at an average of 70 pounds, but for fire purposes it can immediately be raised to from 90 to 105 pounds.

Probably no other city in Canada gives more accommodation to the outlying districts than does Calgary in the matter of supplying water to consumers.

### FIRE DEPARTMENT.

The Calgary Fire Department is considered and acknowledged to be one of the most efficient and up-to-date in the Dominion of Canada. There are seven fire stations in the city, manned as follows:

- 1 Chief of Dept.
- 1 Assistant Chief of Dept.
- 7 Captains.
- 1 Superintendent of Alarms.
- 1 Electrician.

# *Advertising Prudence*

---

No business prospers when public  
interest in it is wanting

No one trade is ever good when  
there isn't much trading in similar  
lines

All know that many customers are  
essential to one's business; one  
wouldn't sell to one customer only,  
if intending to stay in business

The simplest form of prudence is to  
create advertising influence through  
the use of the better advertising  
mediums

One of the very best mediums is  
the CITY DIRECTORY

It is consulted by the buying and  
trading public All the Time

# Morning Albertan

The only Morning Paper published in the City of Calgary  
The Only Paper that reaches all Parts of the Province  
the Day of Publication

That the people of Calgary and vicinity appreciate the worth of THE ALBERTAN is shown in its remarkable growth in the last nine months.

## CIRCULATION

On January 1, 1912	-	10,561
On October 1, 1912	-	13,577

This increase of almost 30 per cent. was made **without** the use of **Premiums** or **Contests**. THE ALBERTAN goes to the homes because it is wanted. It is wanted because it **gives all the news** in a clean and impartial way.
